

What's Going On?

A Simplified Story about COVID-19 with Augmentative and Alternative Communication Icons

Description:

People can read the book at their own pace by clicking on this link: [Google slide show](#). Click on the 'Present' button (top of the screen) to hear each page being read out loud. Use the keyboard to move to the next slide (space bar, enter key, down arrow, or right arrow) – or use the mouse to click the 'next slide' button in the presenter toolbar.

People can also watch as the whole book is read automatically here: [video of the slideshow](#). The speed of how fast the words are read can also be increased.
