### TIPS FOR HEALTH PROVIDER

- ▶ Get the person's attention and make eye contact
- ▶ Repeat, rephrase, or write down your request
- ▶ Ask and/or indicate before touching the person
- ▶ Ask the person their preferred method of communication
- ▶ Minimize the number of people interacting with the patient
- ▶ Know that hearing aids/cochlear implants may improve hearing, but a person may still benefit from an assistive listening device and still may not understand all that you say.
